

# Georgetown Charter Township Water/Sewer Committee Minutes

Monday, August 13, 2007

Present: Carlton, Mohr, Sterk

Also present: Mark Leathhead

Agenda Items

## **Bauer Construction Request to have Township Pay for Sidewalk/Path in Front of their Construction.**

The committee reviewed the request from Bauer Construction to have the Township pay for the sidewalk/path in front of their construction.

The Committee determined that they are required to install at their expense the sidewalk/path as required in the approved site plan. Dr. Mohr had additional concerns that the Township Board should be involved in making the determination as well as the material used for construction to have consistency in an area.

## **48<sup>th</sup> Ave Sewer Installation**

The committee recommends to the Township Board to authorize the installation of sewer in 48<sup>th</sup> Ave at no cost to the Township. The sewer will be extended in 48<sup>th</sup> Ave to serve the gas station and future car wash at the corner of 48<sup>th</sup> and Port Sheldon St.
