Re: Grandville Christian Fellowship Church, Port Sheldon Street

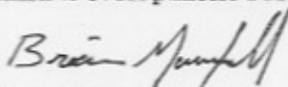

Dear Ms. Minier:

Because of space constraints and at the request of the owner, we have moved the detention basin to the northern portion of the parcel. We would also like to bank 32 parking spaces for future construction as allowed by section 26.9 of the zoning ordinance. The church believes they will only need about 75 parking spaces to begin with. The banked parking area is noted on the layout sheet as "to remain open and un-developed." We have revised the layout, grading, and utility sheets to incorporate these changes. The landscape plan has also been revised with the new detention basin location.

Sorry for the short notice. I hope this is not too great of an inconvenience.

Enclosed please find 10 sets of site plans with the revision date of June 18, 2007.  
Please let me know if you need anything else.

Sincerely,  
Land Development Solutions
