

## Madison Series 305

Shaft lengths: 6 ft. to 20 ft.  
 Post top diameter: 3.4" O.D.  
 Pedestal diameter: 16.5"  
 Pedestal height: 20"

**POST TOP OPTIONS:** Standard tenon size 3" O.D. x 3" long. Other tenon sizes and luminaire mounting configurations available.

**FINISH:** Factory-applied pebblegrain finish with feel and texture of cast iron. Durable, chemical-resistant coating allows for removal of graffiti without paint damage. Custom color matching available; submit color chip with order.

**INSTALLATION:** Available in anchor base or direct-embedded models

### FEATURES:

- round tapered filament-wound fiberglass shaft
- exceeds ANSI/NEMA C136.20 national specification
- capable of single and twin luminaire applications
- tough, polyurethane enamel coating
- durable, non-corrosive and chemical-resistant
- non-conductive
- light weight saves shipping, handling and installation costs
- one-piece fiberglass slip-over base cover ensures that stress applied to shaft is directly transferred to the ground line moment, not the decorative base cover
- 4-year materials and craftsmanship warranty

## Smooth Tapered Fiberglass Lamp Post

1. Standard galvanized steel tenon 3" O.D. x 3" long. Painted to match post. Post top I.D. 2 3/8". Optional tenon sizes available.
2. Smooth, round tapered fiberglass shaft.
3. Stainless steel hex socket locking screws - 3 @ 120°.
4. One-piece fiberglass slip-over base cover.
5. 2 1/2" round hand hole with cover located 12" above grade.

### Anchor base models:

Anchor base post uses electro-galvanized steel anchor base plate, bonded to the post with high strength epoxy and coated with matching urethane finish.

Anchor base plate has four 2" x 1" slotted holes at 90°; accommodates 3/4" x 2 1/2" x 3" anchor bolts in 9"-11" bolt circle.

### Direct embedded models:

Above grade shaft length	Burial depth
6-14 ft.	3 ft.
15-20 ft.	4 ft.

### Optional accessories:

Post-top ring. Single weatherproof receptacle. Banner brackets, flower pot holders, decorative arms.
