

Dan on another issue Georgetown Township side walks are sorely needed on 16th ,off Van Buren, people are walking on the road, which is dangerous, there are on given days 50 or more people out walking. The township did Edson , which is very helpful, but I see no progress on 16th. How about a paved walk next to road on one side and mailboxes on the other side of road, this will save their landscaping! I assume that is their complaint! Or maybe just dollars?
