Subject: 14th Avenue from 44th St to Ponstein

Hi Dan,

You and I have traded emails in the past regarding 14th Street and the extension of the asphalt path around Georgetown Shores. In prior emails you mentioned getting signatures of residents, the cost, etc.

After seeing what was done on Port Sheldon's resurfacing, what was done there would be a big improvement – we already have a 5 foot shoulder on 14th; it's just dirt and stones. Would it be so difficult to pave that? That would give every resident of Julie / Joseph / Sunflower Way and Craig Way at least something you can push a stroller on so you can get to the asphalt path by Ponstein.

It's still walking next to a road where people drive 60 but at least it could be done. Pushing a stroller through the gravel isn't easy.

Also – who would I contact to find out about the plans of the Gleneagle driving range that was closed? I'm on the board of Gleneagle West and everyone on Joseph wants to know what's going on. Right now is just a place to grow weeds, evidently! We thought Joe Byker was planning on building condos there and we're wondering if anyone knows what those plans are.

Thanks,

Jeff Mulder
