Jenison, MI 49429

Grand Valley Automation is pleased to present an addition to your existing Milestone/Axis Camera Solution.

### **Solution Proposed #1-Install (4) Additional Cameras to cover the exterior of the existing Township Building and Library**

- Furnish and install (2) Axis P3228-LVE 8 MP cameras (main entry, library entry, library dropoff) with Forensic WDR, IR, and Lightfinder Technology for Low Light Situations.
- Furnish and install (1) Axis P3719-PLE 15 MP in front of the library to cover the parking lot as well as the entrance door.
- Furnish and install (1) M3058 360 Degree camera to cover courtyard area and rear of building.
- Furnish and install pendant kits, corner mounts and wall mounts for the cameras.
- Furnish and install all necessary wiring to tie cameras into existing network.
- Furnish needed (4) Milestone Prof + licenses for additional cameras.
- Complete submittals, wiring diagrams, documentation and as-builts provided to customer.
- Complete start-up, check-out and commissioning of system provided prior to signoff.

The price for the system as outlined above: **\$11,482.00**

This proposal **assumes** the following:

- Internet connectivity will be provided by others.
- VPN access to the buildings network will be provided.
- Customers IT department will provide GVA with the required static IP address.

This proposal **does not** include the following:

- Any wiring over 30VAC.
- Any night or weekend work.
- Trouble shooting any network or cabling issues, these will be billed in addition on a T&M basis.

Thank you for the opportunity to provide a solution to help improve the security of your parks.
