I was unable to find a link to send my concern. I sent one email and was redirected and called today. Still not clear. My concern is the pathways for walking are not being cared for around Berger Estates. 10th street going NW to Taylor and west to Cottonwood. I've talked to a neighbor that has fallen and been to the hospital with a fractured wrist. I too have fallen. The roads had packed snow like ice. I and my wife now have cleats on our shoes. I feel the new bike path/walk that was just put in last year needs to be removed of the snow and slush to keep people safe and off the roads. Please advise or forward to the right department.
