Subject: Thank you and Hoopla...please?

Georgetown Township Board Members,

First, thank you for all you do. I know much of it is unsung and unseen, but please know that I appreciate your work and I pray for you regularly—both personally and as I lead Holy Cross Lutheran Church in our worship services. **I see you as a vital part of the gifts God has given to our community.**

I have a request that I'd like you to consider, but I also realize that I can't see the whole picture. So please, fit it in where you know is best. I trust you to make good decisions, and I appreciate you taking the time to wrestle through all the particulars. Thanks for taking good care of us.

I would **love to have access to more audiobooks through the service "Hoopla"** which is connected to our Library system. At least 10 times this year, I have found that the book I'm looking for listed is in Hoopla, and I have been unable to access it because it is not included in the current audiobook library through Libby/Overdrive.

This format allows me to digest more content than a printed or ebook because I can absorb it during drives and exercise time. It allows me to make more consistent use of the library services and I love that I can access it from my phone at the times I'm available to explore. I see that many of the neighboring/partner libraries offer access to this service.

Can you please consider adding this to the services that our library offers?

I find that Hoopla is consistently offering more up-to-date titles and even many of the titles that I'm interested in as a pastor seeking to grow and keep up with the latest writings of the thought leaders in my field. This resource would be a great asset to me personally and professionally.

It would also allow me to point more people to the Georgetown library services as they are looking to find answers to their church and faith related questions. I'd love to be a partner to you that way.

Thanks for considering my request.

Have a great holiday.

Pastor Adam
