Subject: Library question

The library is great and I love the new director. It is so much more pleasant to go there than with the last director. People at the desk seem much more relaxed and make things easier for the patrons.

I do have a question though. When will the library be getting hoopla? We have been doing a lot of building in the area and more people and a bigger tax base. It would be nice to have this for us us to access. Many libraries have it and we seem behind in getting it.

Thanks for your consideration

Anita scholtens
